**Replenish depleted  
retirement funds with  
a life settlement...**

# Your life insurance policy\* is one asset that has not lost value in this recession.

For seniors 70 and above, a **life settlement** is an opportunity to sell your life insurance policy to an institutional investor. Do not lapse or surrender a life insurance policy that has become unwanted, unneeded or unaffordable. Instead, convert your insurance policy for needed money now or to replenish depleted retirement assets since a life settlement may be an excellent option.

**For more info, please contact Randy Vogt at
